
Advances in Anatomic Pathology.
There is no December issue.

P-491. From microscopy to whole slide digital images: a century and a half of image analysis.
P-494. Multiplexed measurement of proteins in tissue in a clinical environment.
P-499. ASCO-CAP guidelines for breast predictive factor testing: an update.
P-501. Immunohistochemistry in the diagnostic evaluation of breast lesions.
P-506. HER2 testing in gastric and gastroesophageal junction cancers: a new therapeutic target and diagnostic challenge.
P-509. Rapid multiplex immunohistochemistry using the 4-antibody cocktail YANA-4 in differentiating primary adenocarcinoma from squamous cell carcinoma of the lung.
P-519. Lymphocyte-rich renal cell carcinoma: an unusual histomorphologic manifestation of a tumor that is not part of Lynch syndrome.
P-528. EGF in saliva and tumor samples of oral squamous cell carcinoma.
P-534. Expression of VHL and HIF-1alpha and Their Clinicopathologic Significance in Benign and Malignant Lesions of the Gallbladder.
P-540. CD46 Expression is an unfavorable prognostic factor in breast cancer cases.
P-552. Changes in immunohistochemical levels and subcellular localization after therapy and correlation and colocalization with CD68 suggest a pathogenetic role of Hsp60 in ulcerative colitis.
P-562. Expression of p16INK4a, alone or combined with p53, is predictive of better prognosis in colorectal adenocarcinoma in Tunisian patients.
P-569. Evaluation of methods for preserving PTEN antigenicity in stored paraffin sections.
P-574. Detection of high-risk HPV in head and neck squamous cell carcinomas: comparison of chromogenic in situ hybridization and a reverse line blot method.

P-1527. Systemic inflammation or monoclonal gammopathy?
P-1529. Stability of serum carotene at various light and temperature conditions.
P-1531. "Next-generation" pathology and laboratory medicine.
P-1533. Performance characteristics of mucinous (colloid) carcinoma of the breast in fine-needle aspirates: observations from the college of american pathologists interlaboratory comparison program in nongynecologic cytopathology.

P-1539. Loss of expression of DNA mismatch repair proteins is rare in pancreatic and small intestinal neuroendocrine tumors.

P-1545. Correlation of Histopathologic Follow-up Findings With Vaginal Human Papillomavirus and Low-Grade Squamous Intraepithelial Lesion Papanicolaou Test Results.

P-1561. Numerical fidelity of endoscopic biopsy fragments in the processing sequence of a university surgical pathology laboratory.

P-1565. Small cell carcinoma of the renal pelvis and ureter: clinicopathologic and immunohistochemical features.

P-1570. Usefulness of Serum Anti-p53 Antibody Assay for Lung Cancer Diagnosis.

P-1576. A strategy for optimizing staffing to improve the timeliness of inpatient phlebotomy collections.

P-1581. Increased Body Mass Index but Not Common Vitamin D Receptor, Peroxisome Proliferator-Activated Receptor gamma, or Cytokine Polymorphisms Confers Predisposition to Posttransplant Diabetes.

P-1597. Cutaneous rosai-dorfman disease with increased number of eosinophils: coincidence or histologic variant?

P-1601. Adenocarcinoma of the urinary bladder.

P-1606. Secretory breast carcinoma: unique, triple-negative carcinoma with a favorable prognosis and characteristic molecular expression.

P-1611. Squamous lesions of the ovary.

**Diagnostic Histopathology. Volume 17, Issue 12.**

P-512. Liver cell dysplasia and early hepatocellular carcinoma.

P-521. Pathological diagnosis of hepatocellular adenoma in clinical practice.

P-530. Pathology of non-cirrhotic portal hypertension and incomplete septal cirrhosis.

P-539. Cholangiocarcinoma--new concepts and classifications.

P-548. Recent advances in medical liver disease.

P-557. Diagnostic challenges in a rare case of müllerian adenofibroma of the uterus: instructive case and literature review.

**Diagnostic Pathology. Volume 6, Issue 1.**

P-117. An inexpensive method of small paraffin tissue microarrays using mechanical pencil tips.

P-118. Epidermal growth factor receptor in breast carcinoma: association between gene
copy number and mutations.
P-119. Intraventricular glioneuronal tumor with disseminated lesions at diagnosis - a case report.
P-120. Epithelioid hemangioendothelioma of the forearm with radius involvement. Case report.
P-122. An invasive adenocarcinoma of the accessory parotid gland: a rare example developing from a low-grade cribriform cystadenocarcinoma?
P-123. Extrasosseous (extramedullary) plasmacytomas: a clinicopathologic and immunophenotypic study of 32 Chinese cases.
P-124. Virtual slides in peer reviewed, open access medical publication.
P-125. High grade angiosarcoma arising in fibroadenoma.
P-126. Diagnostic significane of CK19, TG, Ki67 and galectin-3 expression for papillary thyroid carcinoma in the northeastern region of China.
P-127. Skull base metastases from a malignant solitary fibrous tumor of the liver. A case report and literature review.
P-128. Polymerase chain reaction and histology in diagnosis of placental malaria in an area of unstable malaria transmission in Central Sudan.
P-129. Diagnostic Pathology in 2011: reflecting on the development of an open access journal during the last six years.
P-130. Primary pleural angiosarcoma as a mimicker of mesothelioma: a case report.

P-1046. Tumour budding and other prognostic pathological features at invasive margins in serrated colorectal adenocarcinoma: a comparative study with conventional carcinoma.
P-1057. Clinicopathological correlates and prognostic significance of glutathione S-transferase Pi expression in 468 patients after potentially curative resection of node-positive colonic cancer.
P-1071. Differential expression of neural markers in KIT and PDGFRA wild-type gastrointestinal stromal tumours.
P-1081. Gastric carcinoma with invasive micropapillary pattern and its association with lymph node metastasis.
P-1090. Intrahepatic cholangiocarcinoma arising in chronic advanced liver disease and the cholangiocarcinomatous component of hepatocellular cholangiocarcinoma share common phenotypes and cholangiocarcinogenesis.
P-1100. Two distinct pathways of carcinogenesis in primary sclerosing cholangitis.
P-1111. Tumour growth is more dispersed in pancreatic head cancers than in rectal cancer: implications for resection margin assessment*.
P-1135. Dedifferentiated leiomyosarcoma: clinicopathological analysis of 18 cases.
P-1144. Myxoid leiomyosarcoma of the uterus.
P-1156. Endometrial cell counts in recurrent miscarriage: a comparison of counting
methods.
P-1163. Overexpression of dedicator of cytokinesis 1 (Dock180) in ovarian cancer correlated with aggressive phenotype and poor patient survival.
P-1173. Revising the historical collection of epithelioid cell-rich lymphomas of the Kiel Lymph Node Registry: what is Lennert's lymphoma nowadays?
P-1194. Nodular lymphocyte predominant Hodgkin lymphoma and diffuse large B-cell lymphoma: a study of six cases concurrently involving the same site.
P-1204. Pulmonary adenocarcinoma with a micropapillary pattern: a clinicopathological, immunophenotypic and molecular analysis.
P-1215. Osteopontin is highly expressed in severely dystrophic muscle and seems to play a role in muscle regeneration and fibrosis.
P-1229. Expression of carbonic anhydrase IX in genitourinary and adrenal tumours.
P-1240. The role of secreted frizzled-related protein 2 expression in prostate cancer.
P-1249. Podoplanin expression by cancer-associated fibroblasts predicts poor outcome in invasive ductal breast carcinoma.
P-1261. Effect of prolonged formalin fixation on immunohistochemical staining for the proliferation marker Ki67.
P-1261. Rosai-Dorfman disease-like changes in mesenteric lymph nodes secondary to Salmonella infection.
P-1263. Treasures from the attic: transparencies digitally remastered and used for web-based pathology training and education.
P-1266. Invadopodia proteins, cortactin and membrane type I matrix metalloproteinase (MT1-MMP) are expressed in ameloblastoma.
P-1269. Dedifferentiated solitary fibrous tumour of the nasal cavity: the first case reported with molecular characterization of a TP53 mutation.
P-1274. Prox-1, Podoplanin and HPV staining assists in identification of lymphangioma circumscriptum of the vulva and discrimination from vulvar warts.
P-1277. Uterine carcinosarcoma with p53-positive intraepithelial component.
P-1278. Glypican-3 is a marker for solid pseudopapillary neoplasm of the pancreas.

P-1823. Prognostic significance of mitotic figures in metastatic mammary ductal carcinoma to the lymph nodes.
P-1833. Intratumoral budding as a potential parameter of tumor progression in mismatch repair-proficient and mismatch repair-deficient colorectal cancer patients.
P-1849. Frequency, phenotype, and genotype of minute gastrointestinal stromal tumors in the stomach: an autopsy study.
P-1855. Expression of nitric oxide synthases in primary ciliary dyskinesia.
P-1873. PAX8 immunostaining of anaplastic thyroid carcinoma: a reliable means of discerning thyroid origin for undifferentiated tumors of the head and neck.
P-1878. Parakeratosis in skin is associated with loss of inhibitor of differentiation 4 via promoter methylation.
P-1888. Systematic analysis of proteins from different signaling pathways in the tumor center and the invasive front of colorectal cancer.
P-1897. Distinctive patterns of p53 protein expression and microsatellite instability in human colorectal cancer.
P-1923. Centrosome amplification as a putative prognostic biomarker for the classification of urothelial carcinomas.
P-1931. Immunohistochemical expression of prostate tumor overexpressed 1 in cystoprostatectomies with incidental and insignificant prostate cancer. Further evidence for field effect in prostatic carcinogenesis.
P-1937. Correlation between genomic alterations assessed by array comparative genomic hybridization, prognostically informative histologic subtype, stage, and patient survival in gastric cancer.
P-1946. Low activated leukocyte cell adhesion molecule expression is associated with advanced tumor stage and early prostate-specific antigen relapse in prostate cancer.
P-1953. Hyperplastic polyp of the duodenum: a report of 9 cases with immunohistochemical and molecular findings.
P-2010. Senescence in intraductal papillary mucinous neoplasm of the pancreas.
P-2018. Interobserver agreement for Polyomavirus nephropathy grading in renal allografts using the working proposal from the 10th Banff Conference on Allograft Pathology.
P-2025. Intraglomerular crescentic metastases of malignant melanoma.
P-2029. t(4;22)(q12;q11.2) involving presumptive platelet-derived growth factor receptor A and break cluster region in a patient with mixed phenotype acute leukemia.
P-2042. Multiple chromosomal monosomies are characteristic of giant cell ependymoma.
P-2047. Medulloepithelioma of the optic disc.
P-2052. Oncocytic mucoepidermoid carcinoma of the parotid gland with CRTC1-MAML2 fusion transcript: report of a case with review of literature.
