Major pathology journal article titles, Jan 2011, Part I.

**Advances in Anatomic Pathology. Volume 18, Issue 1.**
P-1. Lesions of anogenital mammary-like glands: an update.
P-29. Histologic grading and prognostic biomarkers in salivary gland carcinomas.
P-46. Comprehensive evaluation of colorectal polyps in specimens from endoscopic biopsies.
P-53. HER2 testing in gastric cancer.
P-60. Heterologous and rare homologous sarcomas of the uterine corpus: a clinicopathologic review.
P-75. Are you responsible for medical director duties in anatomic pathology--and why should you care?
P-79. Urothelial neoplasms of the urinary bladder occurring in young adult and pediatric patients: a comprehensive review of literature with implications for patient management.
P-90. The spectrum of papillary thyroid carcinoma variants.

**Archives of Pathology & Laboratory Medicine. Volume 135, Issue 1.**
P-44. Multiparameter flow cytometry in the diagnosis and management of acute leukemia.
P-55. HER2: biology, detection, and clinical implications.
P-63. Estrogen receptor beta.
P-67. Molecular testing of solid tumors.
P-83. Diagnosing emerging and reemerging infectious diseases: the pivotal role of the pathologist.
P-117. The relevance of periglomerular fibrosis in the evaluation of routine needle core renal biopsies.
P-123. Progressive genetic alterations of adenoid cystic carcinoma with high-grade transformation.
P-131. Pathologic evaluation of axillary dissection specimens following unexpected identification of tumor within sentinel lymph nodes.
P-135. The impact of specially designed digital games-based learning in undergraduate pathology and medical education.
P-143. Adult testicular granulosa cell tumor: a review of the literature for clinicopathologic predictors of malignancy.

**Diagnostic Histopathology. Volume 17, Issue 1.**
P-1. Pathology of vitreoretinal junction biopsies.
P-17. Histopathology and molecular diagnosis of corneal infections.
P-25. Recent advances in the molecular diagnosis of paediatric soft tissue sarcomas.
P-36. Atypical microglandular adenosis presenting as a breast lump.
Diagnostic Pathology. Volume 6, Issue 1.
P-1. Expression of Plakophilins (PKP1, PKP2, and PKP3) in Gastric Cancers.
P-2. Diagnostic Pathology in 2010: the successes and perspectives of open access publication.
P-3. Large solitary luteinized follicle cyst of pregnancy and puerperium: report of two cases.
P-4. Lymphoepithelioma-like carcinoma of the vulva, an underrecognized entity? Case report with a single inguinal micrometastasis detected by sentinel node technique.
P-5. Primary acantholytic squamous cell carcinoma of the cecum: a case report.
P-6. Technical note on the validation of a semi-automated image analysis software application for estrogen and progesterone receptor detection in breast cancer.
P-7. Challenges to diagnose metaplastic carcinoma of the breast through cytologic methods: an eight-case series.
P-8. Cardiac beriberi: morphological findings in two fatal cases.
P-10. Osteoid osteoma near the intervertebral foramen may induce radiculopathy through the tumorous inflammation.
P-12. Immunohistochemical profiles of claudin-3 in primary and metastatic prostatic adenocarcinoma.

P-4. Epidemiology of lymphomas.
P-26. MALT lymphoma: many roads lead to nuclear factor-kappab activation.
P-39. The coming of age of microRNA for B cell lymphomas.
P-49. Pathology and biology of peripheral T-cell lymphomas.
P-69. The challenge of the microenvironment in B-cell lymphomas.
P-81. Occult B-cell lymphoproliferative disorders.
P-106. Impact of gene expression profiling in lymphoma diagnosis and prognosis.
P-128. Molecular cytogenetics of lymphoma: where do we stand in 2010?
P-145. Haematological malignancies: the rationale for integrated haematopathology services, key elements of organization and wider contribution
to patient care.

**Histopathology. Volume 58, Issue 2.**

P-155. Update on tumours of the adrenal cortex, phaeochromocytoma and extra-adrenal paraganglioma.

P-191. CD151 expression can predict cancer progression in clear cell renal cell carcinoma.

P-211. Handling of radical prostatectomy specimens: total or partial embedding?

P-217. Increased expression of hepatoma-derived growth factor correlates with poor prognosis in human nasopharyngeal carcinoma.

P-246. Differential expression of the nuclear receptors farnesoid X receptor (FXR) and pregnane X receptor (PXR) for grading dysplasia in patients with Barrett’s oesophagus.

P-254. Distinct histological features characterize primary angiosarcoma of bone.

P-265. Changes in the expression of oestrogen receptors and E-cadherin as molecular markers of progression from normal epithelium to invasive cancer in elderly patients with vulvar squamous cell carcinoma.

P-304. Microfasciculation: a morphological pattern in leprosy nerve damage.

P-312. Glypican 3 is a sensitive, but not a specific, marker for the diagnosis of yolk sac tumours.

P-314. Response to: ‘Glypican 3 is a sensitive, but not specific, marker for the diagnosis of yolk sac tumours’.

P-315. Comparison of cadherin-17 expression between primary colorectal adenocarcinomas and their corresponding metastases: the possibility of a diagnostic marker for detecting the primary site of metastatic tumour.

P-318. Numerous peritoneal loose bodies with ileus.

P-319. Comparison of dual-colour chromogenic in-situ hybridization and fluorescence in-situ hybridization in the assessment of HER2 gene amplification in breast carcinoma.
P-321. Proximal-type epithelioid sarcoma of the uterine corpus.
P-324. Primary pulmonary large B-cell lymphoma-mediastinal type?

**Human Pathology, Volume 42, Issue 1.**
P-1. Update on the serrated pathway to colorectal carcinoma.
P-11. TMPRSS2-ERG gene fusion in small cell carcinoma of the prostate.
P-18. Histologic characteristics of pancreatic intraepithelial neoplasia associated with different pancreatic lesions.
P-25. The altered expression of ING5 protein is involved in gastric carcinogenesis and subsequent progression.
P-36. Template reporting matters—a nationwide study on histopathology reporting on colorectal carcinoma resections.
P-41. Atypical ductal hyperplasia on vacuum-assisted breast biopsy: suspicion for ductal carcinoma in situ can stratify patients at high risk for upgrade.
P-51. Urothelial carcinoma of the bladder with transmural and direct prostatic stromal invasion: does extent of stromal invasion significantly impact patient outcome?
P-57. Matrix metalloproteinase-2 and matrix metalloproteinase-9 codistribute with transcription factors RUNX1/AML1 and ETV5/ERM at the invasive front of endometrial and ovarian carcinoma.
P-68. Interobserver and intraobserver reproducibility in digital and routine microscopic assessment of prostate needle biopsies.
P-75. PINK1 displays tissue-specific subcellular location and regulates apoptosis and cell growth in breast cancer cells.
P-95. Endothelin-1 expression in scleroderma renal crisis.
P-103. Repression of E-cadherin by SNAIL, ZEB1, and TWIST in invasive ductal carcinomas of the breast: a cooperative effort?
P-111. Severe hepatosplenic schistosomiasis: clinicopathologic study of 102 cases undergoing splenectomy.
P-120. Orbital solitary fibrous tumor: encompassing terminology for hemangiopericytoma, giant cell angiofibroma, and fibrous histiocytoma of the orbit: reappraisal of 41 cases.
P-129. Involvement of 14-3-3gamma overexpression in extrahepatic metastasis of hepatocellular carcinoma.
P-136. Somatic mutations in GNAQ in amelanotic/hypomelanotic blue nevi.
P-146. Thyroid-like follicular carcinoma of the kidney with metastases to the lungs and retroperitoneal lymph nodes.

**International Journal of Clinical and Experimental Pathology, Volume 4, Issue 1.**
P-1. Enhanced expression of CD74 in gastrointestinal cancers and benign tissues.
P-13. Morphoproteomic analysis reveals an overexpressed and constitutively activated phospholipase D1-mTORC2 pathway in endometrial carcinoma.
P-22. Absence of microsatellite instability in mucinous carcinomas of the breast.
P-32. Prognostic value of CD133 expression in stage I lung adenocarcinomas.
P-43. Phenotypic variations in NF1-associated low grade astrocytomas: possible role for increased mTOR activation in a subset.
P-58. Genetic and epigenetic alterations during renal carcinogenesis.
P-74. Effect of exogenous galectin-1 on leukocyte migration: modulation of cytokine levels and adhesion molecules.
P-85. Nrf2 expression in endometrial serous carcinomas and its precancers.
P-97. Bronchioloalveolar neoplasia.
P-100. Epstein-Barr virus positive anaplastic large cell lymphoma: myth or reality?
P-111. Primary combined small cell carcinoma of larynx with lateralized histologic components and corresponding side-specific neck nodal metastasis: report of a unique case and review of literature.
P-118. Urachal adenocarcinoma metastatic to the ovaries resembling primary ovarian mucinous carcinoma: a case report with the immunohistochemical study.

P-449. Neoplasms with schwannian differentiation express transcription factors known to regulate normal schwann cell development.
P-458. Xp11.2 Translocation renal cell carcinomas have a poorer prognosis than non-Xp11.2 translocation carcinomas in children and young adults: a meta-analysis.
P-465. Nuclear inclusions and pseudoinclusions: friends or foes of the surgical pathologist?
P-482. Characterization of epithelial apoptosis in biopsies of small-bowel allografts using cleaved caspase 3 immunostaining.
P-488. Goblet cell carcinoid of the appendix: a clinicopathological and immunohistochemical study of 26 cases from southwest china.
P-493. The fas-mediated apoptotic pathway in cardiac myxoma.
P-499. Clinicopathological strategies to identify contralateral prostate cancer involvement in potential candidates for focal therapy.
P-508. Elastofibromatous changes in tissues from spinal biopsies. A degenerative process afflicting a small but important subset of patients operated for spinal canal compression: report of 18 cases.
P-516. Primitive multipotential primary sarcoma of bone (Polyhistioma) or carcinosarcoma metastatic to bone?
P-518. Histologic changes after uterine artery embolization using polyvinyl alcohol particles.
P-526. Thymolipoma, report of a case suggesting an origin from thymic true
hyperplasia.
P-534. Collagenous gastritis.
P-537. Hepatic angiomyolipoma and intramural small intestinal schwannoma: a coincidence or a relationship?
P-544. Pure erythropoiesis in clear cell renal cell carcinoma.
P-547. Simple melanosis of the bladder: a rare entity.
P-554. Prostate cancer presenting as an endobronchial mass: a case report with literature review.
P-564. Pseudoangiomatous stromal hyperplasia (PASH) of the breast with foci of morphologic malignancy: a case of PASH with malignant transformation?
P-570. Squamous metaplasia on the breast implant capsule.
P-575. Benign spindle cell tumor not otherwise specified (NOS) in a male breast.
P-580. Primary capillary hemangioblastoma of bone: report of a case arising in the sacrum.
P-584. Malakoplakia of the spleen: a case report.
