

P-687. Third-track pathology: in unambiguous support of the banbury conference report.
P-691. Synoptic reporting for central nervous system tumors: has its time come?
P-693. Where and by Whom Should Gastric Cancer HER2/neu Status Be Assessed?: Lessons From Breast Cancer.
P-696. The 9th spring seminar of the korean pathologists association of north america.
P-698. Four molecular subtypes of colorectal cancer and their precursor lesions.
P-704. Update on precursor and early lesions of hepatocellular carcinomas.
P-716. Molecular signatures of pancreatic cancer.
P-728. The college of american pathologists and national society for histotechnology workload study.
P-744. Comparison of formalin-free tissue fixatives: a proteomic study testing their application for routine pathology and research.
P-753. Characterization of CXCR4 expression in chondrosarcoma of bone.
P-759. Aberrant CpG Island Hypermethylation in Pediatric Gastric Mucosa in Association With Helicobacter pylori Infection.
P-766. Acidophilic nuclear inclusions are specific for florid ductal hyperplasia among proliferative breast lesions.
P-770. Uniform expression of notch1, suppressor of B-cell-specific gene expression, in plasmablastic lymphoma.
P-776. p63 Expression in Giant Cell-Containing Lesions of Bone and Soft Tissue.
P-780. Modern concepts on the role of inflammation in pulmonary fibrosis.
P-789. Practical neuropathology synoptic reporting for central nervous system tumors.
P-793. A fatal central nervous system enterovirus 68 infection.
P-797. A case of black esophagus with histopathologic description and characterization.
P-799. Blue nevus of the prostate.
P-803. Collagenous sprue: a rare, severe small-bowel malabsorptive disorder.

P-263. Grading in histopathology.
P-268. Diagnostic categorization in EQA schemes.
P-272. Pseudoepitheliomatous tattoo reaction.
P-276. Thyroid cytology.

Diagnostic Pathology. Volume 6, Issue 1.

P-49. X-linked inhibitor of apoptosis positive nuclear labeling: a new independent prognostic biomarker of breast invasive ductal carcinoma.
P-50. Undifferentiated connective tissue disease presenting with prevalent interstitial lung disease: Case report and review of literature.
P-52. Multifocal gastric gastrointestinal stromal tumors (GISTs) with lymph node metastases in children and young adults: A comparative clinical and histomorphological study of three cases including a new case of Carney triad.
P-53. Morphometrical analysis of transbronchial cryobiopsies.
P-54. Factor VIII haplotypes frequencies in Tunisian hemophiliacs A.
P-55. Desmoplastic small round cell tumour in a 74 year old man: an uncommon cause of ascites (case report).
P-56. Unusual finding of endocervical-like mucinous epithelium in continuity with urothelium in endocervicosis of the urinary bladder.

P-1001. Immunohistochemistry in diagnosis of soft tissue tumours.
P-1013. Histopathological and immunophenotypic features of testicular tumour of the adrenogenital syndrome.
P-1019. Inhibin bodies: a new marker for immature Sertoli cells.
P-1028. Relevance of cohort design for studying the frequency of the ERG rearrangement in prostate cancer.
P-1037. Expression of hedgehog pathway components in prostate carcinoma microenvironment: shifting the balance towards autocrine signalling.
P-1048. Modified UroVysion scoring criteria increase the urothelial carcinoma detection rate in cases of equivocal urinary cytology.
P-1054. Activation of the PI3K/Akt/mTOR pathway correlates with tumour progression and reduced survival in patients with urothelial carcinoma of the urinary bladder.
P-1064. Clear-cell papillary renal cell carcinoma: 24 cases of a distinct low-grade renal tumour and a comparative genomic hybridization array study of seven cases.
P-1081. In situ lobular neoplasia of the breast with marked myoepithelial proliferation.
P-1086. Na(+) /H(+) exchanger regulatory factor 1 expression levels in blood and tissue predict breast tumour clinical behaviour.
P-1107. Prognostic significance of CD8(+) T lymphocytes in breast cancer depends upon both oestrogen receptor status and histological grade.
P-1117. Nuclear translocation of beta-catenin and decreased expression of epithelial cadherin in human papillomavirus-positive tonsillar cancer: an early event in human papillomavirus-related tumour progression?
P-1127. High incidences of DNA ploidy abnormalities in tongue squamous cell carcinoma.
of young patients: an international collaborative study.
P-1136. Coexpression of hypoxia-inducible factor-1alpha and glucose transporter-1 is associated with poor prognosis in oral squamous cell carcinoma patients.
P-1157. Chronic sclerosing sialadenitis as one of the immunoglobulin G4-related diseases: a clinicopathological study of six cases from Central Europe.
P-1164. Commentary on IgG4-related sialadenitis: Mikulicz's disease, Kuttner's tumour, and eponymy.
P-1167. Immunohistochemical analysis of 1844 human epithelial and haematopoietic tumours and sarcomas for IDH1R132H mutation.
P-1173. Human epidermal growth factor receptor 2 overexpression and amplification in mucinous tumours of ovary.
P-1174. Smoothelin in bladder and gastrointestinal tract again.
P-1178. Gastric pseudolipomatosis: biopsy follow-up and immunohistochemical analysis of a rare condition.
P-1180. The importance of retaining post mortem tissue -'pseudomesotheliomatous' Merkel cell carcinoma of the pleura.

P-761. Introduction to the special education issue.
P-763. Pathology graduate medical education (overview from 2006-2010).
P-770. Certification and maintenance of certification: updates from the American Board of Pathology.
P-774. Pathology subspecialty fellowship application reform 2007 to 2010.
P-795. Development and evolution of The Knowledge Hub for Pathology and related electronic resources.
P-802. Residency choices by graduating medical students: why not pathology?
P-808. Potential role of minichromosome maintenance protein 2 as a screening biomarker in esophageal cancer high-risk population in China.
P-817. Discovered on gastrointestinal stromal tumor 1 (DOG1) is expressed in pancreatic centroacinar cells and in solid-pseudopapillary neoplasms-novel evidence for a histogenetic relationship.
P-824. A comparative study of intraductal papillary neoplasia of the biliary tract and pancreas.
P-833. Ovarian clear cell carcinomas: RHO GTPases may contribute to explain their singular biologic behavior.
P-840. The role of Twist1 in hepatocellular carcinoma angiogenesis: a clinical study.
P-848. Analysis of glial cell line-derived neurotrophic factor-inducible zinc finger protein 1 expression in human diseased kidney.
P-859. Aberrant expression of the human epidermal growth factor receptor 2 oncogene is not a common feature in osteosarcoma.
P-867. High-grade neuroendocrine carcinomas of the lung highly express enhancer of zeste
homolog 2, but carcinoids do not.

P-882. Insulin-like growth factor I receptor beta expression in hepatocellular carcinoma.

P-892. Desquamating apoptotic variant of high-grade prostatic intraepithelial neoplasia: a possible precursor of intraductal prostatic carcinoma.

P-896. Patterns of glomerular injury in kidneys infiltrated by lymphoplasmacytic neoplasms.

P-909. HER-2 discordance between primary gastric carcinoma and paired lymph node metastasis.

P-910. HER-2 discordance between primary gastric carcinoma and paired lymph node metastasis - reply.

P-285. An Adult Case of Melanotic Xp11 Translocation Renal Cancers: Distinct Entity or Sub-entity?

P-297. Unusual helicobacter pylori in gastric resection specimens: an old friend with a new look.

P-303. The expression of enteric nerve markers and nerve innervation in total colonic aganglionosis.

P-309. Screening for Human Papillomavirus in Basaloid Squamous Carcinoma: Utility of p16INK4a, CISH, and PCR.

P-315. Anatomic study of distribution, numbers, and size of lymph nodes in mesorectum in indians: a autopsy study.

P-321. Teratoma with somatic-type malignant components in germ cell tumors of the testis: a clinicopathologic analysis of 40 cases with outcome correlation.

P-335. Angiogenesis in the progression of breast ductal proliferations.

P-346. The black color in pathology.

P-355. Spontaneous complete regression of gastric large-cell neuroendocrine carcinoma: mediated by cytomegalovirus-induced cross-autoimmunity?

P-364. Heterotopic gastric mucosa in the cystic duct.

P-369. Simultaneous Occurrence of IgG4-Related Chronic Sclerosing Dacryoadenitis and Chronic Sclerosing Sialadenitis Associated with Lymph Node Involvement and Warthin's
Tumor.
P-382. Benign salivary gland tissue inclusion in a pulmonary hilar lymph node from a patient with invasive well-differentiated adenocarcinoma of the lung: a potential misinterpretation for the staging of carcinoma.
P-386. Pediatric renal cryptococcosis: novel manifestations in the acquired immunodeficiency syndrome era.
P-398. Capillary hemangioma of the testis.
P-401. Primary seminal vesicle carcinoma.
P-405. Peripheral eosinophilia camouflaging anaplastic large cell lymphoma.
P-409. Source of Anti-Cytokeratin CAM 5.2 Reagent.
