(Continue from Part 1.)

P-675. Wnt signalling pathway in the serrated neoplastic pathway of the colorectum: possible roles and epigenetic regulatory mechanisms.
P-680. Cancers related to viral agents that have a direct role in carcinogenesis: pathological and diagnostic techniques.
P-687. Rsf-1 expression in rectal cancer: with special emphasis on the independent prognostic value after neoadjuvant chemoradiation.
P-693. PTEN deletion is rare but often homogeneous in gastric cancer.
P-715. Scoring the percentage of Ki67 positive nuclei is superior to mitotic count and the mitosis marker phosphohistone H3 (PHH3) in terms of differentiating flat lesions of the bladder mucosa.
P-725. Fibrosing variant of Hashimoto thyroiditis is an IgG4 related disease.
P-729. Prostatic needle biopsies following primary high intensity focused ultrasound (HIFU) therapy for prostatic adenocarcinoma: histopathological features in tumour and non-tumour tissue.
P-735. Loss of SIRT1 histone deacetylase expression associates with tumour progression in colorectal adenocarcinoma.
P-740. Effect of thrombin receptor expression on microvessel endothelial cells, and survival by coagulation state in oesophageal squamous cell carcinoma.
P-746. The molecular characterisation of unusual subcutaneous spindle cell lesion of breast.
P-751. HER2/neu testing for anti-HER2-based therapies in patients with unresectable and/or metastatic gastric cancer.
P-758. Association of plasma cell subsets in the bone marrow and free light chain concentrations in the serum of monoclonal gammapathy patients.
P-762. Resolution of post-polycythaemic myelofibrosis with a combination of thalidomide and interferon.
P-764. Positive JAK2-V617F leading to diagnosis of Gaucher's disease.
P-766. Infiltrative epitheliosis of the breast.
P-769. HPV 18 prevalence in oral mucosa diagnosed with verrucous leukoplakia: cytological and molecular analysis.

P-1055. Gene discovery in familial cancer syndromes by exome sequencing: prospects for the elucidation of familial colorectal cancer type X.
P-1069. Role of HERG1 potassium channel in both malignant transformation and disease.
progression in head and neck carcinomas.

P-1079. High expression of prostate-specific membrane antigen in the tumor-associated neo-vascularature is associated with worse prognosis in squamous cell carcinoma of the oral cavity.

P-1086. Distinct histopathological features of Hashimoto’s thyroiditis with respect to IgG4-related disease.

P-1098. The effect of cold ischemic time on the immunohistochemical evaluation of estrogen receptor, progesterone receptor, and HER2 expression in invasive breast carcinoma.

P-1106. The prognostic and predictive power of redox protein expression for anthracycline-based chemotherapy response in locally advanced breast cancer.

P-1117. A grading system combining architectural features and mitotic count predicts recurrence in stage I lung adenocarcinoma.

P-1128. Clinicopathologic and molecular features of sporadic early-onset colorectal adenocarcinoma: an adenocarcinoma with frequent signet ring cell differentiation, rectal and sigmoid involvement, and adverse morphologic features.

P-1140. Expression of thyroid transcription factor-1 in normal endometrium is associated with risk of endometrial cancer development.

P-1149. Infectious mononucleosis mimicking lymphoma: distinguishing morphological and immunophenotypic features.

P-1160. Correlation of DLC1 gene methylation with oncogenic PIK3CA mutations in extramammary Paget’s disease.

P-1169. Profiling of ABC transporters ABCB5, ABCF2 and nestin-positive stem cells in nevi, in situ and invasive melanoma.

P-1176. Letter to the Editor & author’s reply: Fluorescence in situ hybridization, a diagnostic aid in ambiguous melanocytic tumors: European study of 113 cases.

P-389. Urological pathology comes of age.

P-391. Update on prostate pathology.

P-407. Recently described and unusual variants of urothelial carcinoma of the urinary bladder.

P-419. Update on testis tumours.

P-427. Use of frozen section in genitourinary pathology.

P-434. SOCS3 expression is inversely correlated with Pyk2 in non-small cell lung cancer and exogenous SOCS3 inhibits proliferation and invasion of A549 cells.

P-441. A critical review of melanoma pathology reports for patients referred to the Western Australian Melanoma Advisory Service.

P-448. Reduced CD151 expression is related to advanced tumour stage in urothelial bladder cancer.

P-453. Patient samples of renal cell carcinoma show reduced expression of TRAF1 compared with normal kidney and functional studies in vitro indicate TRAF1 promotes apoptosis: potential for targeted therapy.

P-460. Multiplex mutation screening by mass spectrometry in gastrointestinal stromal tumours.

P-465. Use of meropenem Adatabs dissolved in MacConkey agar for screening NDM-1
positive Enterobacteriaceae in faecal surveillance cultures.
P-469. Morphological and molecular analysis of a breast cancer cluster at the ABC Studio in Toowong.
P-472. Subareolar abscess in a male breast: cytological characterisation and distinction from other benign and malignant squamous cell aspirate.
P-474. Sebaceous lymphadenoma of the parotid gland: a rare lesion masquerading as a metastatic node in an elderly male patient with mixed testicular germ cell tumour on chemotherapy.
P-476. Prostatic adenocarcinoma with solitary metastasis to the uvea.
P-479. Multiple mucinous cysts on the anterior of Hart's lines of the vulva.
P-481. Low grade serous ovarian carcinoma with metastases to the sternum and ribs.
P-485. Intimal sarcoma of the abdominal aorta presenting as a retroperitoneal mass.
P-487. Cystic tumour of the atrioventricular node: a case report.
P-489. NSAID-associated protein losing enteropathy with fatal outcome.
P-492. MDS with del(5q) and associated cKIT D816V positive mastocytosis.
P-493. Utility of the Bruker Biotyper matrix-assisted laser desorption ionisation time-of-flight mass spectrometer in a clinical microbiology laboratory.

**Pathology – Research and Practice. Volume 208, Issue 8.**
P-444. Hemispheric extra-ventricular glioneurocytoma: A clinicopathological review with detailed immunohistochemical profile.
P-452. Glucose and blood pressure lowering effects of Pycnogenol((R)) are inefficient to prevent prolongation of QT interval in experimental diabetic cardiomyopathy.
P-462. Co-expression of Bmi1 and EZH2 as an independent poor prognostic factor in esophageal squamous cell carcinoma.
P-475. Immunolocalization of DCAMKL-1, a putative intestinal stem cell marker, in normal colonic tissue.
P-480. Trypanosoma cruzi infection alters glucose metabolism at rest and during exercise without modifying the morphology of pancreatic islets in rats.
P-489. mRNA BRAF expression helps to identify papillary thyroid carcinomas in thyroid nodules independently of the presence of BRAFV600E mutation.
P-493. Cellular solitary fibrous tumor (hemangiopericytoma) with anaplasia at cerebellopontine angle-A case report.
P-497. Necrotic mature ovarian teratoma associated with anti-N-methyl-d-aspartate receptor encephalitis.

**Pathology International. Volume 62, Issue 8.**
P-513. Comparison of HER2 immunohistochemical results using a monoclonal antibody (SV2-61gamma) and a polyclonal antibody (for Dako HercepTest) in advanced gastric cancer.
P-518. High frequency of t(14;18) in Hodgkin's lymphoma associated with follicular lymphoma.
P-532. Infantile adenomyoma subclinically excreted into the patient's diaper.
P-549. Primitive myxoid mesenchymal tumor of infancy: Report of two cases and review of the literature.
P-554. An adult case of midgut volvulus in familial visceral myopathy.
P-559. Malignant diffuse-type tenosynovial giant cell tumor of the buttock.
P-571. Kikuchi Fujimoto Disease (histiocytic necrotizing lymphadenitis) following Hodgkin lymphoma.

**Seminars in Diagnostic Pathology. Volume 29.**
P- There is no August issue.

**The American Journal of Surgical Pathology. Volume 36, Issue 8.**
P-1107. The Diagnosis of Endometrial Carcinomas With Clear Cells by Gynecologic Pathologists: An Assessment of Interobserver Variability and Associated Morphologic Features.
P-1119. Loss of retinoblastoma protein expression in spindle cell/pleomorphic lipomas and cytogenetically related tumors: an immunohistochemical study with diagnostic implications.
P-1141. PHOX2B Immunolabeling: A Novel Tool for the Diagnosis of Undifferentiated Neuroblastomas Among Childhood Small Round Blue-cell Tumors.
P-1150. Use of the JL1 Epitope, Which Encompasses the Nonglycosylation Site of CD43, as a Marker of Immature/Neoplastic Langerhans Cells.
P-1158. Evaluation of ProExC as a Prognostic Marker in Oropharyngeal Squamous Cell Carcinomas.
P-1178. Serrated Polyposis Is an Underdiagnosed and Unclear Syndrome: The Surgical Pathologist has a Role in Improving Detection.
P-1186. Paradoxical Relationship Between the Degree of EGFR Amplification and Outcome in Glioblastomas.
P-1194. Adrenocortical Tumors: Improving the Practice of the Weiss System Through Virtual Microscopy: A National Program of the French Network INCa-COMETE.

P-1202. High-grade Sarcomatous Overgrowth in Solitary Fibrous Tumors: A Clinicopathologic Study of 10 Cases.

P-1216. NUT Midline Carcinomas of the Sinonasal Tract.

P-1222. Pathologic Characteristics of NUT Midline Carcinoma Arising in the Mediastinum.

P-1228. Distinct Clinicohistologic Features of Inflammatory Bowel Disease-associated Colorectal Adenocarcinoma: In Comparison With Sporadic Microsatellite-stable and Lynch Syndrome-related Colorectal Adenocarcinoma.

P-1234. Liver and skin histopathology in adults with Acid sphingomyelinase deficiency (niemann-pick disease type B).

P-1247. Transitions Between Flat Epithelial Atypia and Low-grade Ductal Carcinoma In Situ of the Breast.

P-1253. Unique Pattern of Renal kappa Light Chain Amyloid Deposition With Histiocytic Transdifferentiation of Tubular Epithelial Cells.

P-1258. Melanoma Arising in a Large Plaque-type Blue Nevus With Subcutaneous Cellular Nodules.

P-381. Live imaging in zebrafish reveals neu(trophil) insight into the metastatic niche.

P-385. The roles of microRNAs in sarcomas.

P-392. The pathological roles of BART miRNAs in nasopharyngeal carcinoma.

P-404. Differential drug class-specific metastatic effects following treatment with a panel of angiogenesis inhibitors.

P-417. Anti-VEGF antibody therapy does not promote metastasis in genetically engineered mouse tumour models.

P-431. Neutrophil-mediated experimental metastasis is enhanced by VEGFR inhibition in a zebrafish xenograft model.

P-446. Tandem duplication of chromosomal segments is common in ovarian and breast cancer genomes.

P-456. Tumour suppressor Fus1 provides a molecular link between inflammatory response and mitochondrial homeostasis.

P-470. miR-124 inhibits cell proliferation in gastric cancer through down-regulation of SPHK1.

P-481. Proximity ligation assays for isoform-specific Akt activation in breast cancer identify activated Akt1 as a driver of progression.

P-499. Association between congenital defects in papillary outgrowth and functional obstruction in Crim1 mutant mice.

P-e5. YWHAE-FAM22 gene fusion in clear cell sarcoma of the kidney.

P-103. Neuroendocrine differentiation does not have independent prognostic value in conservatively treated prostate cancer.

P-109. Anterior gradient protein 2 (AGR2) is an independent prognostic factor in ovarian
high-grade serous carcinoma.
P-117. Role of tumor-associated macrophages and angiogenesis in desmoid-type fibromatosis.
P-123. BIRC2 amplification in squamous cell carcinomas of the uterine cervix.
P-129. PI3KCA mutations and/or PTEN loss in Her2-positive breast carcinomas treated with trastuzumab are not related to resistance to anti-Her2 therapy.
P-141. Stromal p16 expression differentiates endometrial polyp from endometrial hyperplasia.
P-149. Down-staging (<pT2) of urothelial cancer at cystectomy after the diagnosis of detrusor muscle invasion (pT2) at diagnostic transurethral resection (TUR): is prediction possible?
P-157. ERG rearrangement in local recurrences compared to distant metastases of castration-resistant prostate cancer.
P-163. In oral squamous cell carcinoma, high FAK expression is correlated with low P53 expression.
P-169. Alpha-methylacyl-coenzyme A racemase expression in neuroendocrine neoplasms of the stomach.
P-177. Frozen section diagnosis in donor liver biopsies: observer variation of semiquantitative and quantitative steatosis assessment.
P-185. Training increases concordance in classifying pulmonary adenocarcinomas according to the novel IASLC/ATS/ERS classification.
P-195. Feasibility and clinical utility of intraoperative consultation with frozen section in osseous lesions.
P-205. Chondroclasts are mature osteoclasts which are capable of cartilage matrix resorption.
P-211. Virtual CT autopsy in clinical pathology: feasibility in clinical autopsies.
P-221. Transdifferentiation of pituitary thyrotrophs to lactothyrotrophs in primary hypothyroidism: case report.
P-227. Intestinal metaplasia and colonization of endometriosis in a case of an appendiceal mucinous neoplasm.
