(Continue from Part 1.)

Major pathology journal article titles, January 2012, Part 2.

**International Journal of Gynecological Pathology. Volume 31, Issue 1.**

*P-1.* Endonuclease-resistant DNA: a novel histochemical marker for cervical intraepithelial neoplasia and cervical carcinoma.

*P-8.* Intratumoral lymphatic vessel density in vulvar squamous cell carcinomas: a possible association with favorable prognosis.

*P-15.* Characterization of NOL7 gene point mutations, promoter methylation, and protein expression in cervical cancer.

*P-25.* Adenoid basal carcinoma of the uterine cervix: clinicopathologic features of 12 cases with reference to CD117 expression.

*P-33.* Chronic hypertrophic vulvar herpes simulating neoplasia.

*P-38.* History of gynecological pathology XXIV. Dr Cuthbert Lockyer.

*P-48.* Pathologic scoring of PTEN immunohistochemistry in endometrial carcinoma is highly reproducible.

*P-57.* P16INK4a expression in undifferentiated carcinoma of the uterus does not exclude its endometrial origin.

*P-66.* A pilot study of microsatellite instability and endometrial cancer survival in white and African American women.

*P-73.* Tetraploid partial hydatidiform mole: a case report and review of the literature.

*P-80.* Immunohistochemical characterization of primary and recurrent adult granulosa cell tumors.

*P-91.* Malignant Brenner tumor of the ovary with transformation to trabecular carcinoid: an immunocytochemical and electron microscopic study.

*P-98.* Endometriosis-associated serous borderline tumor and endometrial stromal sarcoma of the ovary: a report of a rare lesion in an infant.

**International Journal of Surgical Pathology.**

Content of the issue is not available by the end of the month.

**Journal of Clinical Pathology. Volume 65, Issue 1.**

*P-1.* The role of the molecular footprint of EGFR in tailoring treatment decisions in NSCLC.

*P-8.* Preanalytical mixing of whole-blood specimens in the context of the Athlete Passport.

*P-14.* Validity of internal expression of the major histocompatibility complex class I in the diagnosis of inflammatory myopathies.

*P-20.* Electron microscope study on a transmissible cytotoxic factor isolated from cerebrospinal fluid of neurological patients: analysis of its structure and of its effects on various types of cell cultures.

*P-29.* Aurora-B protein expression is linked to initial response to taxane-based first-line chemotherapy in stage III ovarian carcinoma.

*P-36.* Receptor activator for nuclear factor kappa B expression predicts poor prognosis in breast cancer patients with bone metastasis but not in patients with visceral metastasis.

*P-41.* LMP1 expression is positively associated with metastasis of nasopharyngeal carcinoma: evidence from a meta-analysis.

*P-46.* Correlation between expression of cellular retinol-binding protein 1 and its
methylation status in larynx cancer.

P-51. Causes of pulmonary granulomas: a retrospective study of 500 cases from seven countries.

P-64. Coordinated expression of oestrogen and androgen receptors in HER2-positive breast carcinomas: impact on proliferative activity.

P-69. Predicting clinical behaviour of breast phyllodes tumours: a nomogram based on histological criteria and surgical margins.

P-77. Genomic gains and losses in malignant mesothelioma demonstrated by FISH analysis of paraffin-embedded tissues.

P-83. Antifungal treatment affects the laboratory diagnosis of invasive aspergillosis.

P-87. EGFR and KRAS mutations detection on lung cancer liquid-based cytology: a pilot study.

P-92. Two cases of opportunistic parasite infections in patients receiving alemtuzumab.

P-95. Withdrawn. Tracking the footprints of the rabies virus: are we any closer to decoding this elusive virus?

P-1. Histopathological and immunohistochemical findings of 20 autopsy cases with 2009 H1N1 virus infection.

P-14. Loss of DLC1 is an independent prognostic factor in patients with oral squamous cell carcinoma.

P-26. Lymphadenoma of the salivary gland: clinicopathological and immunohistochemical analysis of 33 tumors.

P-36. Immunoglobulin G expression and its colocalization with complement proteins in papillary thyroid cancer.

P-46. CXCR4 expression correlates with the degree of tumor infiltration and BRAF status in papillary thyroid carcinomas.

P-56. Analysis of stromal cells in osteofibrous dysplasia and adamantinoma of long bones.

P-65. Thrombopoietin receptor agonist therapy in primary immune thrombocytopenia is associated with bone marrow hypercellularity and mild reticulin fibrosis but not other stromal abnormalities.

P-75. Postradiation cutaneous angiosarcoma after treatment of breast carcinoma is characterized by MYC amplification in contrast to atypical vascular lesions after radiotherapy and control cases: clinicopathological, immunohistochemical and molecular analysis of 66 cases.

P-86. Epithelial-mesenchymal transition in malignant mesothelioma.

P-100. Cathepsin K expression in the spectrum of perivascular epithelioid cell (PEC) lesions of the kidney.

P-112. Association of microRNA-21 expression with its targets, PDCD4 and TIMP3, in pancreatic ductal adenocarcinoma.

P-122. Accumulative copy number increase of MET drives tumor development and histological progression in a subset of ovarian clear-cell adenocarcinomas.

P-131. The expression of phospho-AKT1 and phospho-MTOR is associated with a favorable prognosis independent of PTEN expression in intrahepatic cholangiocarcinomas.
P-140. Identifying additional lymph nodes in radical cystectomy lymphadenectomy specimens.
P-145. B-cell lymphomas with MYC/8q24 rearrangements and IGH@BCL2/t(14;18)(q32;q21): an aggressive disease with heterogeneous histology, germinal center B-cell immunophenotype and poor outcome.

P-1. PLAG1 expression in mesenchymal tumors: An immunohistochemical study with special emphasis on the pathogenetical distinction between soft tissue myoepithelioma and pleomorphic adenoma of the salivary gland.
P-8. Overexpression of peptidyl-prolyl isomerase Pin1 attenuates hepatocytes apoptosis and secondary necrosis following carbon tetrachloride-induced acute liver injury in mice.
P-36. Pathologic study of pandemic influenza A (H1N1) 2009 cases from India.
P-43. Primary pure squamous cell carcinoma of the thyroid: Report and histogenic consideration of a case involving a BRAF mutation.
P-49. Carcinoid tumor arising in a thymic bronchogenic cyst associated with thymic follicular hyperplasia.
P-55. Myoepithelial carcinoma: First case reported in the trachea.
P-60. Peripheral T-cell lymphoma arising from an intraglandular lymph node in the parotid gland: A case report and literature review.
P-65. Sclerosing epithelioid fibrosarcoma: Cytogenetic analysis of FUS rearrangement.
P-69. Prostatic stromal tumor of uncertain malignant potential (STUMP) with unrecognized growth pattern.
P-72. An unusual case of metaplastic breast carcinoma following neoadjuvant chemotherapy.
P-75. Sclerosing odontogenic carcinoma.

Seminars in Diagnostic Pathology.
There is no January issue.

P-e1. Trends in pathology malpractice claims.
P-1. Columnar-lined esophagus without intestinal metaplasia has no proven risk of adenocarcinoma.
P-27. Mammary analog secretory carcinoma of salivary gland origin with the ETV6 gene rearrangement by FISH: expanded morphologic and immunohistochemical spectrum of a recently described entity.
P-35. Diverse fusion patterns and heterogeneous clinicopathologic features of renal cell carcinoma with t(6;11) translocation.

Histologic and immunohistochemical analyses of alpha-fetoprotein—producing cancer of the stomach.

Immunohistochemical assessment of lymphovascular invasion in stage I colorectal carcinoma: prognostic relevance and correlation with nodal micrometastases.

Claudin-6 is a nonspecific marker for malignant rhabdoid and other pediatric tumors.

Enhanced detection of spitzoid melanomas using fluorescence in situ hybridization with 9p21 as an adjunctive probe.

Nonspecific interstitial pneumonia: a study of 6 patients with progressive disease.

Primary renal neuroblastoma—a clinical pathologic study of 8 cases.

Diagnostic utility of CD10 in benign and malignant extrahepatic bile duct lesions.

Well-differentiated papillary mesothelioma of the female peritoneum: a clinicopathologic study of 26 cases.

Intact INI1 gene region with paradoxical loss of protein expression in AT/RT: implications for a possible novel mechanism associated with absence of INI1 protein immunoreactivity.

Prediction of adenocarcinoma in esophagectomy specimens based upon analysis of preresection biopsies of Barrett esophagus with at least high-grade dysplasia: a comparison of 2 systems.

HPV analysis in distinguishing second primary tumors from lung metastases in patients with head and neck squamous cell carcinoma.

Well-differentiated pancreatic neuroendocrine carcinoma in tuberous sclerosis—case report and review of the literature.

Epithelioid malignant peripheral nerve sheath tumor arising in a schwannoma, in a patient with "neuroblastoma-like" schwannomatosis and a novel germline SMARCB1 mutation.
Adenoid cystic carcinomas constitute a genomically distinct subgroup of triple-negative and basal-like breast cancers.
P-97. A Ki67/BCL2 index based on immunohistochemistry is highly prognostic in ER-positive breast cancer.
P-108. Hsa-miR-375 is differentially expressed during breast lobular neoplasia and promotes loss of mammary acinar polarity.
P-120. Tumour necrosis factor-alpha drives Alport glomerulosclerosis in mice by promoting podocyte apoptosis.
P-132. Transglutaminase 1 and its regulator tazarotene-induced gene 3 localize to neuronal tau inclusions in tauopathies.

P-1. Virchows Archiv: Quo vadis?
P-19. Management of precancerous conditions and lesions in the stomach (MAPS): guideline from the European Society of Gastrointestinal Endoscopy (ESGE), European Helicobacter Study Group (EHSG), European Society of Pathology (ESP), and the Sociedade Portuguesa de Endoscopia Digestiva (SPED).
P-47. MHC class II expression in pancreatic tumors: a link to intratumoral inflammation.
P-61. Expression of Raf-1 kinase inhibitory protein in carcinoma of the ampulla of Vater.
P-69. Frozen section analysis of sentinel lymph nodes in patients with breast cancer does not impair the probability to detect lymph node metastases.
P-77. PIK3CA mutations and loss of ARID1A protein expression are early events in the development of cystic ovarian clear cell adenocarcinoma.
P-89. Carbonic anhydrase IX is expressed in mesothelioma and metastatic clear cell renal cell carcinoma of the lung.
P-95. Peripheral chondrosarcoma progression is associated with increased type X collagen and vascularisation.
P-103. Fatty lesions in intra-articular loose bodies: a histopathological study of non-primary synovial chondromatosis cases.
P-109. The birth of the clinicopathological method in France: the rise of morbid anatomy in France during the first half of the nineteenth century.
P-119. CD99 is expressed in chordoid glioma and suggests ependymal origin.
P-123. Eosinophilic myenteric ganglionitis as a cause of chronic intestinal pseudo-obstruction.
