
**Advances in Anatomic Pathology. Volume 19.**

There is no June issue.

**Annals of Diagnostic Pathology. Volume 16, Issue 3.**

*P-161.* Absence of IDH1-R132H mutation predicts rapid progression of nonenhancing diffuse glioma in older adults.

*P-177.* Up-regulation of Notch-1 in psoriasis: an immunohistochemical study.

*P-185.* Clinicopathologic and biomarker analysis of invasive pleomorphic lobular carcinoma as compared with invasive classic lobular carcinoma: an experience in our institution and review of the literature.

*P-190.* Low local metastatic rate may widen indication of nephron-sparing surgery for renal cell carcinoma.

*P-196.* Microcalcifications of the breast: a mammographic-histologic correlation study using a newly designed Path/Rad Tissue Tray.

*P-202.* How much formalin is enough to fix tissues?

*P-210.* Tubulovillous adenoma of the anal canal: report of 2 rare cases with review of literature.

*P-214.* Malacoplakia of the tongue complicating the site of irradiation for squamous cell carcinoma with review of the literature.

*P-219.* Plasmablastic lymphoma clinically presenting in the urinary tract.

*P-224.* Extranodal marginal zone lymphoma of mucosa-associated lymphoid tissue type arising in the pleura with pleural fibrous plaques in a lathe worker.

**Applied Immunohistochemistry & Molecular Morphology. Volume 20.**

There is no June issue.

**Archives of Pathology & Laboratory Medicine. Volume 136, Issue 6.**

*P-588.* Letter to the Editor & author’s reply: Questions on the significance of "indefinite for dysplasia" in barrett metaplasia.

*P-590.* Personalized medicine? Who has the tissue?

*P-591.* Idiopathic pulmonary fibrosis may be a disease of recurrent, tractional injury to the periphery of the aging lung: a unifying hypothesis regarding etiology and pathogenesis.

*P-601.* Reevaluation and Identification of the Best Immunohistochemical Panel (pVHL, Maspin, S100P, IMP-3) for Ductal Adenocarcinoma of the Pancreas.

*P-610.* Quantitation of HER2/neu Expression in Primary Gastroesophageal Adenocarcinomas Using Conventional Light Microscopy and Quantitative Image Analysis.

*P-618.* A histopathologic pattern of centrilobular hepatocyte injury suggests 6-mercaptopurine-induced hepatotoxicity in patients with inflammatory bowel disease.

*P-623.* ALK-1 Protein Expression and ALK Gene Rearrangements Aid in the Diagnosis of Inflammatory Myofibroblastic Tumors of the Female Genital Tract.

*P-627.* Automated Quantification of MART1-Verified Ki67 Indices by Digital Image Analysis in Melanocytic Lesions.
P-635. Lymphovascular invasion in micropapillary urothelial carcinoma: a study of 22 cases.
P-646. NLRP7 Mutation Analysis in Sporadic Hydatidiform Moles in Tunisian Patients: NLRP7 and Sporadic Mole.
P-652. Structured Electronic Template for Histopathology Reporting on Colorectal Carcinoma Resections: Five-Year Follow-up Shows Sustainable Long-Term Quality Improvement.
P-657. CD68 Immunostaining in the Evaluation of Chronic Histiocytic Intervillositis.
P-660. Evaluation of an automated digital imaging system, nextslide digital review network, for examination of peripheral blood smears.
P-668. Biospecimens and biorepositories for the community pathologist.
P-679. Necrotizing palisading granuloma of the bladder in an otherwise healthy young man.
P-681. Chronic lymphocytic inflammation with pontine perivascular enhancement responsive to steroids following influenza vaccination.
P-691. HER2/neu Gene Amplification and Protein Overexpression in Gastric and Gastroesophageal Junction Adenocarcinoma: A Review of Histopathology, Diagnostic Testing, and Clinical Implications.

P-221. Pathology of the parathyroid glands.
P-234. Tumours of chromaffin cell origin: phaeochromocytoma and paraganglioma.
P-245. Adrenocortical tumours.
P-253. Progress in salivary gland pathology: new entities and selected molecular features.
P-261. Pathology of bone tumours.

P-62. Ileocolic intussusception due to a cecal endometriosis: Case report and review of literature.
P-63. Genetic alterations in a primary medullary thyroid carcinoma and its lymph node metastasis in a patient with 15 years follow-up.
P-64. Unusual primary osseous Hodgkin lymphoma in rib with associated soft tissue mass: a case report and review of literature.
P-65. Delayed apoptosis by neutrophils from COPD patients is associated with altered bak, bcl-xl, and mcl-1 mRNA expression.
P-67. A case of arrhythmogenic right ventricular cardiomyopathy without arrhythmias.
P-68. Prediction of pathological and oncological outcomes based on extended prostate biopsy results in patients with prostate cancer receiving radical prostatectomy: a single institution study.
P-69. Oncogenic reg IV is a novel prognostic marker for glioma patient survival.
P-70. Primary Intravascular large B-cell lymphoma of lung: a report of one case and
P-71. Ex vivo localization and immunohistochemical detection of sentinel lymph node micrometastasis in patients with colorectal cancer can upgrade tumor staging.
P-73. Immunohistochemical characterization of neoplastic cells of breast origin.
P-74. Primary malignant melanoma of the duodenum without visible melanin pigment: a mimicker of lymphoma or carcinoma.
P-75. Molecular characteristics and chromatin texture features in acute promyelocytic leukemia.
P-76. Gastrointestinal lymphomas in a North American population: clinicopathologic features from one major Central-Midwestern United States tertiary care medical center.
P-77. Pigmented paraganglioma of the kidney: a case report.

**Histopathology. Volume 60, Issue 7.**
P-1023. Yolk sac tumours revisited. A review of their many faces and names.
P-1034. The connective tissue changes of Crohn's disease.
P-1045. Poorly differentiated oncocytic thyroid carcinoma - diagnostic implications and outcome.
P-1052. Papillary thyroid carcinomas with and without BRAF V600E mutations are morphologically distinct.
P-1060. Mucinous differentiation in colorectal cancer - indicator of poor prognosis?
P-1073. ACTN4 gene amplification and actinin-4 protein overexpression drive tumour development and histological progression in a high-grade subset of ovarian clear-cell adenocarcinomas.
P-1084. Suitability of infrared microspectroscopic imaging for histopathology of the uterine cervix.
P-1099. Discovered on gastrointestinal stromal tumour 1 (DOG1): a useful immunohistochemical marker for diagnosing chondroblastoma.
P-1107. Distinctive histopathological features that support a diagnosis of cholesterol ester storage disease in liver biopsy specimens.
P-1114. Increased expression of ZBP-89 and its prognostic significance in hepatocellular carcinoma.
P-1125. Prognostic significance of phosphorylated STAT-1 expression in premenopausal and postmenopausal patients with invasive breast cancer.
P-1133. MUC5AC, cytokeratin 20 and HER2 expression and K-RAS mutations within mucinogenic growth in congenital pulmonary airway malformations.
P-1144. CD133 expression is associated with poor outcome in neuroblastoma via chemoresistance mediated by the AKT pathway.
P-1160. Renal allograft tissue: its new role in patient management.
P-1162. Pulmonary sclerosing haemangioma with metastatic spread to stomach.
P-1164. Diffuse pleural mesothelioma with epithelioid and angiosarcomatous components - a hitherto undescribed pattern of differentiation.
P-1166. Re-audit of revised method for assessing the mitotic component of histological grade in needle core biopsies of invasive carcinoma of the breast.

**Human Pathology. Volume 43, Issue 6.**

P-771. Advances in the pathology of penile carcinomas.
P-790. Costaining for keratins 8/18 plus ubiquitin improves detection of hepatocyte injury in nonalcoholic fatty liver disease.
P-801. c-kit gene mutation and CD117 expression in human anorectal melanomas.
P-808. E-cadherin nuclear staining is useful for the diagnosis of ovarian adult granulosa cell tumor.
P-818. Sarcoidosis does not belong to or overlap with immunoglobulin G4-related diseases based on an assessment of serum immunoglobulin G4 levels in cardiac and noncardiac sarcoidosis.
P-826. Total parenteral nutrition therapy and liver injury: a histopathologic study with clinical correlation.
P-843. Expression of endothelin 2 and localized clear cell renal cell carcinoma.
P-850. Inhibin-alpha and synaptophysin immunoreactivity in synovial sarcoma with granular cell features.
P-858. Cyclin kinase subunit 1B nuclear expression predicts an adverse outcome for patients with relapsed/refractory multiple myeloma treated with bortezomib.
P-865. Total Survivin and acetylated Survivin correlate with distinct molecular subtypes of breast cancer.
P-874. Anaplastic thymic carcinoma: a clinicopathologic and immunohistochemical study of 6 cases.
P-878. Relationship between alpha-methylacyl-coenzyme A racemase expression and mucin phenotype in gastric cancer.
P-898. Evaluation of the detection of melanin by the Fontana-Masson silver stain in tissue with a wide range of organisms including Cryptococcus.
P-904. Expression of CXCR4 indicates poor prognosis in patients with clear cell carcinoma of the ovary.
P-911. Pancreatic acinar-like adenocarcinoma of the proximal stomach invading the esophagus.
P-921. EGFR, HER2, survivin, and loss of pSTAT3 characterize high-grade malignancy in salivary gland cancer with impact on prognosis.
P-932. Unusual thyroid carcinoma with excessive extracellular hyaline globules: a case of "hyalinizing papillary carcinoma".
P-943. Diffuse reticuloendothelial system involvement in type IV glycogen storage disease with a novel GBE1 mutation: a case report and review.
P-952. A novel t(6;13)(q15;q34) translocation in a giant cell reparative granuloma (solid
aneurysmal bone cyst).

P-958. Ectopic hepatic tissue presenting as right atrial mass.

**International Journal of Clinical and Experimental Pathology, Volume 5, Issue 4.**
P-278. Aldo-keto reductase family 1 member C3 (AKR1C3) is expressed in adenocarcinoma and squamous cell carcinoma but not small cell carcinoma.
P-290. Lentivirus-mediated RNAi knockdown of VEGFA in RKO colorectal cancer cells decreases tumor formation and growth in vitro and in vivo.
P-299. CsA improves the trophoblasts invasiveness through strengthening the cross-talk of trophoblasts and decidual stromal cells mediated by CXCL12 and CD82 in early pregnancy.
P-308. Histologic evaluation of intrahepatic micrometastases in patients treated with or without neoadjuvant chemotherapy for colorectal carcinoma liver metastasis.
P-315. The PIWI protein acts as a predictive marker for human gastric cancer.
P-326. Necrotic epithelial cells in proximal renal tubules of 2(nd) trimester fetuses: is this "acute tubular necrosis"?
P-339. Expression of c-Myc and Fas correlates with perineural invasion of pancreatic cancer.
P-347. Ribonucleotide reductase M2 does not predict survival in patients with resectable pancreatic adenocarcinoma.
P-356. Plasmacytoid adenocarcinoma of the lung.
P-359. The efficacy of EBER in situ hybridization (ISH) stain in PTLD (malignant diffuse large B-cell lymphoma) about 4 years after ABO-incompatible kidney transplantation: a case report.
P-367. Tumor-to-tumor metastasis: pathology and neuroimaging considerations.
P-374. Giant cell tumor of the tendon sheath composed largely of epithelioid histiocytes.
P-377. Hemophagocytic syndrome secondary to adult-onset Still's disease but very similar to lymphoma.

**International Journal of Gynecological Pathology, Volume 31.**
There is no June issue.

**International Journal of Surgical Pathology, Volume 20, Issue 3.**
P-223. Depolarized MUC1 Expression Is Closely Associated With Hypoxic Markers and Poor Outcome in Resected Non-Small Cell Lung Cancer.
P-233. Significance of the correlation between the expression of interleukin 6 and clinical features in patients with non-small cell lung cancer.
P-240. p16ink4a Expression in Benign and Malignant Melanocytic Conjunctival Lesions.
P-246. Use of fluorescence in situ hybridization to distinguish metastatic uveal from cutaneous melanoma.
P-252. Rab11 is a useful tool for the diagnosis of microvillous inclusion disease.
P-257. Black adenoma of the adrenal gland.
P-260. Benign ganglion cells "invasion" in prostate needle biopsy.
P-262. Intestinal ancylostomiasis: an unusual histologic finding.
P-264. Lymph node art.
P-265. Two out of three required: a case of incomplete carney triad.
P-269. Renal cell carcinoma with extensive oncocytic features.
P-276. Primary extragonadal germinoma of the medulla oblongata.
P-297. Embryonal (undifferentiated) sarcoma of the liver with peripheral angiosarcoma differentiation arising in a mesenchymal hamartoma in an adult patient.
P-301. Abdominal wall endometriosis associated with ventriculoperitoneal and lumboperitoneal shunts: a report of 2 cases of an extremely rare phenomenon.
P-305. Primary vaginal ewing sarcoma: case report and review of the literature.
P-311. Cutaneous pseudolymphoma following tattoo application: report of two new cases of a potential lymphoma mimicker.
P-316. Combined aldosterone and cortisol secretion by adrenal incidentaloma.

(Continue on Part 2.)
