(Continue from Part 1.)

Major pathology journal article titles, March 2012, Part 2.

**P-103.** Frequency of serous tubal intraepithelial carcinoma in various gynecologic malignancies: a study of 300 consecutive cases.

**P-111.** A systematic review of papers examining the use of intraoperative frozen section in predicting the final diagnosis of ovarian lesions.

**P-116.** Histological grading of ovarian clear cell adenocarcinoma: proposal for a simple and reproducible grouping system based on tumor growth architecture.

**P-125.** Aberrant expression of WWOX protein in epithelial ovarian cancer: a clinicopathologic and immunohistochemical study.

**P-133.** A detailed immunohistochemical analysis of 2 cases of papillary cystadenoma of the broad ligament: an extremely rare neoplasm characteristic of patients with von hippel-lindau disease.

**P-141.** Sclerosing peritonitis associated with a luteinized adult granulosa cell tumor.

**P-145.** A surveillance conundrum: a case of 4 distinct primary malignancies in a BRCA-1 mutation carrier.

**P-149.** Coexistence of struma ovarii and serous cystadenoma of the ovary.

**P-151.** PAX2 loss by immunohistochemistry occurs early and often in endometrial hyperplasia.

**P-160.** Endometrial intraepithelial neoplasia terminology in practice: 4-year experience at a single institution.

**P-166.** Myometrial xanthomatosis: possible relationship to prior pregnancy procedure.

**P-172.** Uterine leiomyosarcoma producing granulocyte colony stimulating factor.

**P-178.** Prevalence of human papillomavirus in women without cervical cancer: a population-based study in Eastern India.

**P-184.** Primary vaginal mucinous adenocarcinoma of gastric type arising in adenosis: a report of 2 cases, 1 associated with uterus didelphys.

**P-192.** Neurofibroma of the cervix presenting as cervical stenosis in a patient with neurofibromatosis type 1: a case report.

*International Journal of Surgical Pathology*

Content is not available in PubMed by the end of the month.

**P-193.** Intraoperative analysis of sentinel lymph nodes in breast cancer by one-step nucleic acid amplification.

**P-200.** A review of the clinical presentation, natural history and inheritance of variegated porphyria: its implausibility as the source of the 'Royal Malady'.

**P-206.** Expression of NCAM and OCIAD1 in well-differentiated thyroid carcinoma: correlation with the risk of distant metastasis.

**P-213.** Fascin expression in endocervical neoplasia: correlation with tumour morphology and growth pattern.

**P-218.** Standardisation of EGFR FISH in colorectal cancer: results of an international interlaboratory reproducibility ring study.
P-224. Is breast specimen shrinkage really a problem in breast-conserving surgery?
P-228. Clinicopathological and molecular study of penile melanoma.
P-237. HER2 status in unusual histological variants of gastric adenocarcinomas.
P-248. Associations of Rsf-1 overexpression with poor therapeutic response and worse survival in patients with nasopharyngeal carcinoma.
P-254. PAX8 is expressed in the majority of renal epithelial neoplasms: an immunohistochemical study of 223 cases using a mouse monoclonal antibody.
P-257. Role of routine neuropathological examination for determining cause of death in sudden unexpected deaths in infancy (SUDI).
P-262. Proposed pathogenesis of Paget-Schroetter disease: impingement of the subclavian vein by a congenitally malformed bony tubercle on the first rib.
P-267. Twenty-year review of quantitative transmission electron microscopy for the diagnosis of primary ciliary dyskinesia.
P-278. T/NK cell type chronic active Epstein-Barr virus disease in adults: an underlying condition for Epstein-Barr virus-associated T/NK-cell lymphoma.
P-283. Human papillomavirus detection in dysplastic and malignant oral verrucous lesions.

**Modern Pathology. Volume 25, issue 3.**
P-347. Molecular pathology of lung cancer: key to personalized medicine.
P-370. Extrathoracic metastases of thymic origin: a review of 35 cases.
P-378. MYC gene amplification is often acquired in lethal distant breast cancer metastases of unamplified primary tumors.
P-388. Aldehyde dehydrogenase 1A1 expression in breast cancer is associated with stage, triple negativity, and outcome to neoadjuvant chemotherapy.
P-398. Molecular subtyping of male breast cancer by immunohistochemistry.
P-405. p40 (DeltaNp63) is superior to p63 for the diagnosis of pulmonary squamous cell carcinoma.
P-416. The distribution of immunomodulatory cells in the lungs of patients with idiopathic pulmonary fibrosis.
P-439. Large duct type invasive adenocarcinoma of the pancreas with microcystic and papillary patterns: a potential microscopic mimic of non-invasive ductal neoplasia.
P-449. PAX2-null secretory cell outgrowths in the oviduct and their relationship to pelvic serous cancer.
P-456. CD133 expression associated with poor prognosis in ovarian cancer.
P-465. p16(INK4a) and p14(ARF) mRNA expression in Pap smears is age-related.
P-471. ERG immunohistochemistry is not predictive for PSA recurrence, local recurrence or overall survival after radical prostatectomy for prostate cancer.
P-480. Histopathological findings in 29 lymph node biopsies with increased IgG4 plasma
cells.
P-492. Histopathological and immunohistochemical findings of 20 autopsy cases with 2009 H1N1 virus infection.

P-155. Encapsulated papillary thyroid carcinoma, follicular variant: A misnomer.
P-161. Clinical implications of N-cadherin expression in gastric cancer.
P-167. Breast cancer resistance protein expression is associated with early recurrence and decreased survival in resectable pancreatic cancer patients.
P-176. DEK overexpression is correlated with the clinical features of breast cancer.
P-182. Global histone modification pattern associated with recurrence and disease-free survival in non-small cell lung cancer patients.
P-199. Malignant transformation of exophytic Schneiderian papilloma of the nasal cavity.
P-204. Phyllodes tumor of the prostate.
P-209. Unilateral glomerulocystic kidney disease associated with tuberous sclerosis complex in a neonate.
P-216. Two cases of ovarian clear cell adenocarcinoma producing estradiol.

Seminars in Diagnostic Pathology.
There is no March issue.

P-321. HPV-associated Neuroendocrine Carcinoma of the Oropharynx: A Rare New Entity With Potentially Aggressive Clinical Behavior.
P-331. Divergent Expression of MUC5AC, MUC6, MUC2, CD10, and CDX-2 in Dysplasia and Intramucosal Adenocarcinomas With Intestinal and Foveolar Morphology: Is This Evidence of Distinct Gastric and Intestinal Pathways to Carcinogenesis in Barrett Esophagus?
P-343. The profile of acinic cell carcinoma after recognition of mammary analog secretory carcinoma.
P-351. Prox1 transcription factor as a marker for vascular tumors-evaluation of 314 vascular endothelial and 1086 nonvascular tumors.
P-360. Solid pattern yolk sac tumor: a morphologic and immunohistochemical study of 52 cases.
P-368. Low-grade ovarian serous neoplasms (low-grade serous carcinoma and serous borderline tumor) associated with high-grade serous carcinoma or undifferentiated carcinoma: report of a series of cases of an unusual phenomenon.
P-396. A word of caution regarding napsin a expression in squamous cell carcinomas of the lung.
P-402. The prevalence of pancreatic acinar differentiation in gastric adenocarcinoma:
report of a case and immunohistochemical study of 111 additional cases.

P-418. Mycobacterium abscessus Granulomatous Prostatitis.

P-423. MDM2 and CDK4 Immunohistochemical Coexpression in High-grade Osteosarcoma: Correlation With a Dedifferentiated Subtype.

P-432. Urachal Carcinomas of the Nonglandular type: Salient Features and Considerations in Pathologic Diagnosis.

P-443. Diagnostic Reproducibility of Hydatidiform Moles: Ancillary Techniques (p57 Immunohistochemistry and Molecular Genotyping) Improve Morphologic Diagnosis.

P-454. Prognostic significance in substaging of t1 urinary bladder urothelial carcinoma on transurethral resection.

P-462. Diagnostic Utility of p16, CDK4, and MDM2 as an Immunohistochemical Panel in Distinguishing Well-differentiated and Dedifferentiated Liposarcomas From Other Adipocytic Tumors.

P-470. Oncocytic adrenal cortical carcinosarcoma with pleomorphic rhabdomyosarcomatous metastases.

P-557. Chronic cardiac allograft rejection: critical role of ED-A(+) fibronectin and implications for targeted therapy strategies.

P-562. Endothelial glycocalyx dysfunction in disease: albuminurcia and increased microvascular permeability.

P-575. beta-Catenin determines upper airway progenitor cell fate and preinvasive squamous lung cancer progression by modulating epithelial-mesenchymal transition.

P-588. The biphasic nature of hypoxia-induced directional migration of activated human hepatic stellate cells.

P-598. Severity of doxorubicin-induced small intestinal mucositis is regulated by the TLR-2 and TLR-9 pathways.

P-609. Recipient-derived EDA fibronectin promotes cardiac allograft fibrosis.

P-619. Sublytic C5b-9 complexes induce proliferative changes of glomerular mesangial cells in rat Thy-1 nephritis through TRAF6-mediated PI3K-dependent Akt1 activation.

P-633. Ligand-independent transforming growth factor-beta type I receptor signalling mediates type I collagen-induced epithelial-mesenchymal transition.

P-645. Caveolin-1 overexpression is associated with hepatocellular carcinoma tumourigenesis and metastasis.

P-666. Microtubule-binding protein CLIP-170 is a mediator of paclitaxel sensitivity.

P-674. 15-Hydroxyprostaglandin dehydrogenase associates with poor prognosis in breast cancer, induces epithelial-mesenchymal transition, and promotes cell migration in cultured breast cancer cells.

P-237. Ovarian carcinomas: five distinct diseases with different origins, genetic alterations, and clinicopathological features.
P-251. Decentral gene expression analysis for ER+/Her2- breast cancer: results of a proficiency testing program for the EndoPredict assay.
P-271. SOX9 expression and its methylation status in gastric cancer.
P-281. Clinicopathologic study of mixed adenoneuroendocrine carcinomas of hepatobiliary organs.
P-309. Sudden cardiac death caused by coronary vasculitis.
P-319. Diagnostic value of neutrophil gelatinase-associated lipocalin (NGAL) immunoexpression in follicular-patterned lesions of the thyroid gland.
P-327. Histological and clinical characteristics of malignant giant cell tumor of bone.
P-335. Dedifferentiated peripheral chondrosarcoma: a clinicopathologic, immunohistochemical, and molecular analysis of four cases.
P-343. Immunohistochemical marker panel differentiates between the three most common subtypes of renal cell carcinoma independent from histomorphologic criteria.
P-353. Urothelial carcinoma of the renal pelvis with simultaneous trophoblastic and malignant clear cell endodermal-type differentiation.
P-357. Visceral leishmaniasis in a patient with AIDS: early pathological diagnosis using conventional histology, PCR and electron microscopy is the key for adequate treatment.
