P-441. Immunohistochemical and Fluorescence In Situ Hybridization Studies on Noninvasive and Invasive Extramammary Paget's Disease.

P-449. Characteristics of pelvic lymph node metastases in prostatic adenocarcinoma: a study of 83 cases.

P-455. CD25 Is a Novel Marker of Hepatic Bile Canaliculus.

P-462. Tumoral calcinosis—a pathogenetic overview: a histological and ultrastructural study with a report of two new cases, one in infancy.

P-474. Do adventitial mast cells contribute to the pathogenesis of ascending thoracic aorta aneurysm?

P-480. The scream.

P-481. Rheumatoid nodule of the vocal cord.

P-483. HER-2 in Breast Cancer: A Puzzle's Piece!

P-484. An angry appendix.

P-488. Metaplastic variant of invasive micropapillary breast carcinoma: a unique triple negative phenotype.

P-494. Peripheral dentinogenic ghost cell tumor: report of a case and literature review.

P-519. Sporadic hemangioblastoma of the kidney in a 29-year-old man.

P-528. Histopathological characterization of a cameron lesion.

**Journal of Clinical Pathology, Volume 65, Issue 10.**

P-867. Pathological grading of regression following neoadjuvant chemoradiation therapy: the clinical need is now.

P-872. The role of hypoxia-inducible factor 1 in atherosclerosis.

P-877. Going glass to digital: virtual microscopy as a simulation-based revolution in pathology and laboratory science.

P-882. Detection of Cu(I) and Zn(II) ions in colon tissues by multi-photon microscopy: novel marker of antioxidant status of colon neoplasm.
P-888. Roles of fibroblasts from the interface zone in invasion, migration, proliferation and apoptosis of gastric adenocarcinoma.
P-896. Diagnostic and prognostic relevance of Cullin1 expression in invasive ductal carcinoma of the breast.
P-907. Frequent expression of fibroblast growth factor-23 (FGF23) mRNA in aneurysmal bone cysts and chondromyxoid fibromas.
P-910. Stromal invasion and micropapillary pattern in 212 consecutive surgically resected stage I lung adenocarcinomas: histopathological categories for prognosis prediction.
P-919. Pathology and prognosis in pseudomyxoma peritonei: a review of 274 cases.
P-924. Qualities of sessile serrated adenoma/polyp/lesion and its borderline variant in the context of synchronous colorectal carcinoma.
P-928. Diagnostic accuracy of icteric index to detect abnormal total bilirubin values.
P-934. Increased plasma and salivary cortisol levels in patients with oral cancer and their association with clinical stage.
P-940. Sanger sequencing in routine KRAS testing: a review of 1720 cases from a pathologist’s perspective.
P-945. Twisted gastrulation expression in cholangiocellular and hepatocellular carcinoma.
P-949. Death certification: do consultant pathologists do it better?
P-953. JAK2V617F mutation and allele burden are associated with distinct clinical and morphological subtypes in patients with essential thrombocythaemia.
P-955. Early lesions in lymphomas of germinal centre B-cell derivation: evidence and hypotheses.
P-958. Mesothelioma of the tunica vaginalis with BerEp4 and LeuM1 expression: identification of cytoplasmic tonofilaments by electron microscopy is a key diagnostic feature.
P-959. An FNA cytology foam core device for making cell blocks.
P-961. Quality control by tissue microarray in immunohistochemistry.
P-962. Radiological signs of Leri-Weill dyschondrosteosis present in the A170P carrier.

P-1315. Tumor budding in colorectal carcinoma: time to take notice.
P-1333. Reovirus-associated reduction of microRNA-let-7d is related to the increased apoptotic death of cancer cells in clinical samples.
P-1345. Diagnostic utility of immunohistochemistry in distinguishing trichoepithelioma and basal cell carcinoma: evaluation using tissue microarray samples.
P-1384. Sensitivity of MDM2 amplification and unexpected multiple faint alphoid 12 (alpha
12 satellite sequences) signals in atypical lipomatous tumor.
P-1397. Fibrotic focus and hypoxia in male breast cancer.
P-1413. The clinical significance of lymph node size in colon cancer.
P-1423. Proximal colon cancers and the serrated pathway: a systematic analysis of precursor histology and BRAF mutation status.
P-1432. Molecular genetic evidence supporting the neoplastic nature of fibrous stroma in testicular teratoma.

P-497. 'Bronchioloalveolar carcinoma': is the term really dead? A critical review of a new classification system for pulmonary adenocarcinomas.
P-506. TUFM is a potential new prognostic indicator for colorectal carcinoma.
P-513. Utility of RhoC and ZAG protein expression as biomarkers for prediction of PSA failure following radical prostatectomy for high grade prostate cancer.
P-519. The placenta in Beckwith-Wiedemann syndrome: genotype-phenotype associations, excessive extravillous trophoblast and placental mesenchymal dysplasia.
P-534. Reduced expression of Raf-1 kinase inhibitory protein in renal cell carcinoma: a significant prognostic marker.
P-547. The effect of monoclonal antibody cetuximab (C225) in combination with tyrosine kinase inhibitor gefitinib (ZD1839) on colon cancer cell lines.
P-552. Is CD20 positive plasma cell myeloma a unique clinicopathological entity? A study of 40 cases and review of the literature.
P-557. Altered IkappaBalp expression promotes NF-kappaB activation in monocytes from primary Sjogren's syndrome patients.
P-562. Is there a need for expert opinion for biopsy diagnosis of difficult cases of malignant mesothelioma?
P-563. A case of mesothelial/monocytic incidental cardiac excrescence (MICE) associated with squamous cell carcinoma of lung.
P-565. Nodular prurigo of the vulva.
P-567. Vaginal carriage rate of streptococcal pyogenes in 1600 pregnant women.
P-568. Endocrine mucin producing sweat gland carcinoma: a clinicopathological analysis of three cases.
P-571. Isolated intracranial myeloid sarcoma.
P-574. A spectrum of oncocytic lesions in the parotid gland of a patient with sarcoidosis.
P-576. Expressional analysis of NOLA1, NOLA2, NOLA3 and DKC1, the core proteins in H/ACA ribonucleoproteins, in gastric and colorectal cancers.
P-577. Incidental finding of a common polymorphism (Asp1260Glu) and a previously unreported mutation of factor VIII (Asp588Val), resulting in moderate haemophilia A.
P-578. Dabigatran: laboratory monitoring.
P-580. First reported case of imported human Babesia microti infection in Australia.
P-583. Comparison of Vitek MS (MALDI-TOF) to standard routine identification methods: an advance but no panacea.
P-567. Meningeal tumors histologically mimicking meningioma.
P-578. Trends in prostatic adenocarcinoma tumor volume by visual estimation in prostatectomy specimens.
P-584. DNA extraction and molecular analysis of non-tumoral liver, spleen, and brain from autopsy samples: The effect of formalin fixation and paraffin embedding.
P-592. Influence of anatomical subsite on the incidence of microsatellite instability, and KRAS and BRAF mutation rates in patients with colon carcinoma.
P-598. Expression of laminin-5 and integrins in actinic cheilitis and superficially invasive squamous cell carcinomas of the lip.
P-604. Morphological heterogeneity of the simultaneous ipsilateral invasive tumor foci in breast carcinoma: A retrospective study of 418 cases of carcinomas.
P-610. Correlation between coronary plaque burden and heart weight.
P-615. Evaluation of circulating concentrations of CXCL1 (Gro-alpha), CXCL10 (IP-10) and CXCL12 (SDF-1) in ALL patients prior and post bone marrow transplantation.
P-620. Noncompaction myocardium in association with type Ib glycogen storage disease.
P-628. Gonadoblastoma: Case report of two young patients with isochromosome 12p found in the dysgerminoma overgrowth component in one case.

P-647. Cancer genomics and pathology: All Together Now.
P-660. Diabetic mastopathy, a clinicopathological correlation of 34 cases.
P-665. The characteristic expression of B7-H3 and B7-H4 in liver biopsies from patients with HBV-related acute-on-chronic liver failure.
P-675. Expression of macrophage-derived chemokine (CCL22) in atherosclerosis and regulation by histamine via the H2 receptor.
P-684. High expression of ALDH1 and SOX2 diffuse staining pattern of oral squamous cell carcinomas correlates to lymph node metastasis.
P-690. Clinicopathological analysis of a composite lymphoma containing both T- and B-cell lymphomas.
P-709. Case reports of primary pulmonary adenocarcinoma with pleural spread: So-called pseudomesotheliomatous adenocarcinoma.
P-716. Gastric nodular lesion caused by IgG4-related disease.

P-. There is no October issue.

P-1425. Multilocular Cystic Renal Cell Carcinoma: Similarities and Differences in Immunoprofile Compared With Clear Cell Renal Cell Carcinoma.
P-1434. Commercial molecular panels are of limited utility in the classification of pancreatic cystic lesions.
P-1444. MUC4 Is a Sensitive and Extremely Useful Marker for Sclerosing Epithelioid Fibrosarcoma: Association With FUS Gene Rearrangement.
P-1452. Massive neonatal adrenal enlargement due to cytomegaly, persistence of the transient cortex, and hyperplasia of the permanent cortex: findings in cushing syndrome associated with hemihypertrrophy.
P-1464. Identification of tissue contamination by polymorphic deletion probe fluorescence in situ hybridization.
P-1472. Utility of GATA3 Immunohistochemistry in Differentiating Urothelial Carcinoma From Prostate Adenocarcinoma and Squamous Cell Carcinomas of the Uterine Cervix, Anus, and Lung.
P-1477. Tumor necrosis is a prognostic factor in thick cutaneous melanoma.
P-1489. Evaluation of Reliability of FISH Versus Brightfield Dual-probe In Situ Hybridization (BDISH) for Frontline Assessment of HER2 Status in Breast Cancer Samples in a Community Setting: Influence of Poor Tissue Preservation.
P-1497. Chickenpox-related Pulmonary Granulomas in Immunocompetent Adults: Clinicopathologic and Molecular Features of an Underrated Occurrence.
P-1509. Fibroblastic connective tissue nevus: a rare cutaneous lesion analyzed in a series of 25 cases.
P-1527. Fibrin-associated Large B-cell Lymphoma: Part of the Spectrum of Cardiac Lymphomas.
P-1538. alpha-Hemoglobin-stabilizing Protein Is a Sensitive and Specific Marker of Erythroid Precursors.
P-1548. Diffuse pulmonary lymphatic disease presenting as interstitial lung disease in adulthood: report of 3 cases.
P-1555. Sclerosing cholangitis with granulocytic epithelial lesion: a benign form of sclerosing cholangiopathy.
P-1562. Cyclin D1 as a Diagnostic Immunomarker for Endometrial Stromal Sarcoma With YWHAE-FAM22 Rearrangement.

P-131. Epithelial-mesenchymal crosstalk alteration in kidney fibrosis.
P-158. Hepatoma-derived growth factor regulates breast cancer cell invasion by modulating epithelial-mesenchymal transition.
P-170. PAI-1 promotes the accumulation of exudate macrophages and worsens pulmonary fibrosis following type II alveolar epithelial cell injury.
P-193. Psoriasis in humans is associated with down-regulation of galectins in dendritic cells.
P-204. MiR-182 overexpression in tumourigenesis of high-grade serous ovarian carcinoma.
P-216. Oestrogen attenuates tumour progression in hepatocellular carcinoma.
P-241. Platelet-derived growth factor receptor-alpha promotes lymphatic metastases in papillary thyroid cancer.
P-251. TGFBR2 but not SPP1 genotype modulates osteopontin expression in Duchenne muscular dystrophy muscle.

P-355. LGR4 and LGR6 are differentially expressed and of putative tumor biological significance in gastric carcinoma.
P-367. ARID1A expression loss in gastric cancer: pathway-dependent roles with and without Epstein-Barr virus infection and microsatellite instability.
P-379. A distinctive epitheliomesenchymal biphasic tumor in the duodenum: the first case of duodenoblastoma?
P-385. The significantly reduced number of interstitial cells of Cajal in chagasic megacolon (CM) patients might contribute to the pathophysiology of CM.
P-393. Hepatic stellate cells are involved in the pathogenesis of acute-on-chronic liver failure (ACLF).
P-399. Tumor architecture exerts no bias on nuclear grading in breast cancer diagnosis.
P-405. Morphological parameters of flat epithelial atypia (FEA) in stereotactic vacuum-assisted needle core biopsies do not predict the presence of malignancy on subsequent surgical excision.
P-419. Flat epithelial atypia with and without atypical ductal hyperplasia: to re-excise or not. Results of a 5-year prospective study.
P-425. Higher cytoplasmic and nuclear poly(ADP-ribose) polymerase expression in familial than in sporadic breast cancer.
P-433. Morphological and molecular characteristics of nested melanoma of the elderly (evolved lentiginous melanoma).
P-441. Loss of microRNA-200a and c, and microRNA-203 expression at the invasive front of primary cutaneous melanoma is associated with increased thickness and disease progression.
P-449. Morphological and immunological changes in the skin of autopsied women with AIDS.
P-457. Expression patterns of emmprin and monocarboxylate transporter-1 in ovarian epithelial tumors.
P-475. Cartilage tumour progression is characterized by an increased expression of heparan sulphate 6O-sulphation-modifying enzymes.
